

X100

Industry-Leading Performance, Footprint, Scalability and Price Point

Best Performance

X100 SYSTEM FEATURES

- 50/50 disc input enables use of multiple CD/DVD or Blu-ray media types
- Integrated touch screen PC options eliminating the space requirements of a keyboard, mouse, or monitor
- Reliable, robust picker mechanism for high-volume environments
- Dual drive system for redundancy and fail-over maximizing up-time
- Choice of printer technologies (Inkjet, Thermal, Thermal-retransfer)
- Industry's smallest footprint at less than 2 square feet or 12" x 22"
- Easy integration with Microtech's Universal API
- Lock-down input for data security in non-secure environments
- Enclosure security to protect blank media and all moving parts
- External media output

FULLY AUTOMATED CD/DVD/BD PRODUCTION SYSTEM

Introducing the Microtech X100 Publishing System, a feature-rich, 100-disc solution for media production, publishing, duplication and data storage. The X100 offers the industry's smallest footprint at less than 2 square feet or 12" x 22"; and comes complete with integrated touch-screen PC options, choice of three supported print technologies and the freedom to customize the unit to application requirements with Microtech's Universal API.

OPTIMIZED PERFORMANCE

Designed for maximum output and unmatched uptime, Microtech's X100 can be configured with a choice of printing options, including inkjet solutions, indelible, on-demand printing capabilities, or thermal silk-screen for cost-effective publication and economical long-term consumable usage.

Ease of integration, optimized foot-print and the industry's most cost-effective price point enable a "no-compromise" approach to digital publication, and a simple transition path for customers who require a competitive alternative to the costly, pre-configured solutions currently on the market today. Microtech lets you decide the features that are important to you and your bottom line!

X100

DISC PRINTING OPTIONS

The Xstreamjet printer is our newest media print solution, providing professional quality CD printing to your in-house media production. The new XstreamJet provides options for either six separate ink cartridges or bulk ink with a continuous ink supply.

K2 Thermal Printer uses the latest retransfer technology for superior photo quality and full disc coverage. The results are comparable to off-set printing.

Prism Thermal Printer is ideal for text or graphics on blank or pre silk-screened discs in either black or single color.

APPLICATIONS

X100 publication solutions are ideal for just about any industry or market, including: Music • Video • Service Bureau • Software • Gaming • Medical • Education • Banking & Financial • Government • Telecommunications • Manufacturing • Surveillance • Email Archive • Regulatory Compliance • Disaster Recovery • Records Retention

WARRANTY, SERVICE AND TECHNICAL SUPPORT

Microtech offers competitive one-year contracts with options for enhanced, on-site support.
