Handle it.

## Xpress XP

Xpress XP is designed for high volume continuous CD and DVD publishing.

### Xpress XP System Features

- 600 Disc Capacity
- 6 CD or DVD Recorders
- Concurrent Mixed Media Support
- High-Quality Inkjet or Thermal Printer
- Customizable API
- High Throughput
- Fast Robotics
- Modular Design
- Integrated Windows PC

### High Volume CD & DVD Publishing System

Microtech's Xpress XP is the perfect system for creating discs with unique content in a networked environment. With the highest throughput, fully scalable architecture, and network ready operation – Xpress XP is a disc publishing solution in a class by itself.

Each Xpress XP unit includes a 600-disc capacity robotic handler and integrated server PC for maximum throughput in a networked environment. Xpress XP is a scalable solution, using Microtech publishing software, or creating your own application with the API. A typical installation has one or multiple Xpress XP units publishing from your network in unison.

### Fully Loaded

All necessary software comes fully installed and ready to run. In order to meet with today's security standards, our publishing software enables you to copy-protect your discs as well as encrypt them with dynamically generated serial numbers.

### Disc Printing

Automatically print text and graphics on to your discs with the highest-quality inkjet or thermal disc printers on the market. Our inkjet printer provides up to 4800 dpi print resolution with the sharpest photo-quality text and graphics imaginable.

Our thermal transfer technology is fast and extremely economical and the print is both waterproof and indelible. Mixed-media permits loading a combination of CDs and DVDs or different sized discs may be simultaneously loaded and used.

### Formats Supported

DVD Video and DVD-ROM, ISO 9660, HFS, mixed-mode, hybrid, audio (CD-DA), Video CD, CD-ROM/XA, Joliet, Romeo, Rockridge, UDF, CD-I, CD Plus, and CD+G (Karaoke) formats.
