

“High Capacity” CD/DVD printing

Marathon Printer

- **Savings** : printing cost only **0.02 euros per disc***, between **6 and 12 times less expensive** than competing inkjet printers
- **Autonomy** : **10 times more than standard inkjet cartridges**

The **Marathon Printer** is a revolutionary professional inkjet printing solution.

Equipped with four 95ml-ink tanks, the Marathon Printer enables you to print **over 2,500 discs** (full surface).

Based on the IMT **RCD/ DVD Printer 2**, the **Marathon Printer** integrates proven robotic technology and holds 260 discs.

With the **Marathon Printer** it costs only **0.02 euros to print one disc***, making it the most cost-effective inkjet solution available on the market today.

The print module was developed around a standard **Epson™** engine. Coupled with the pigmented ink provided by **IMT**, it ensures flawless details precisions (up to 5760 dpi) and unmatched colour rendering and print speed.

The **Marathon Printer** is an environment-friendly printer since the refill reservoir system prevents from buying replacement ink cartridges. Also, the system allows a visual control of ink level.

The **Marathon Printer** provides unmatched capacity and outstanding value for money!

* : euros (excl. VAT), photo-quality printed disc, full surface

IMT strong points
Present worldwide since 10 years
IMT renowned for its skills as well
as its reliable solutions
