

The Perfect Solution for Live Event Audio Recording/Copying

MF Digital's 5906 LIVE is the most advanced LIVE Event Recorder/Duplicator. Building on the MF Digital's award winning 5000 design, this easy to use device is an ideal solution for recording church or school events, lectures, or concerts.

An All in One Solution

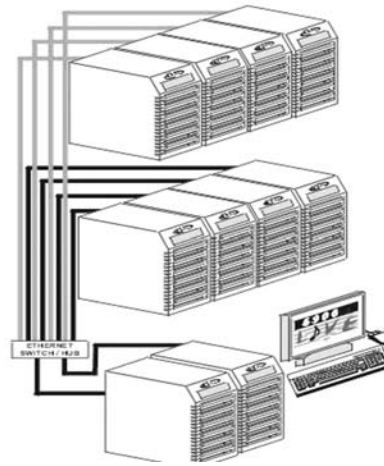

The 5906 LIVE can record continuously for hours. It easily replaces the multiple recorders commonly used when events exceed eighty minutes. In fact, it takes the place of two recorders, a duplicator and digital audio components. With six drives, and further scalable, it is a very effective copier.

Simplicity

The 5906 LIVE gives you the ability to record audio directly from your mixer or other analog or digital source. It is equally capable of recording from cassette decks or DAT players. The one-touch intuitive menu makes MF Digital's 5906 copiers as easy to use as a photocopier! Simply record the event or performance to the 5906 LIVE's hard disk, set the desired Start ID's, or track points, choose where to span discs if the program exceeds the capacity of one CD, then start writing up to six discs at once within minutes of the event's end.

Copier Module Expandability: From 6 to 60 drives

MF Digital's "disc casting" (free client command module) allows you to add additional 5906 modules and burn on an unlimited number of drives. Even from remote locations around a concert facility or campus. The 5906 flexibility provides an autoloader option for complete automation of the burn process.

Complete Network Connectivity

MF Digital's license-free network client Command Module software allows you to submit, edit, or check status of duplication jobs from any computer across your network

to single or multiple duplicating modules. You can even drag-and-drop WAV files from your networked PC directly to your modules to duplicate a disc without the need of a master.

Not All Duplicators are Created Equal

MF Digital's 5906 Series professional-grade expandable CD / DVD duplication modules deliver outstanding performance, reliability, flexibility and quality. Backed by a one-year MF DIGITAL warranty and a responsive, in-house technical support team, the 5906 module copiers are truly in a class by themselves.

Advanced Copier Features

- ◆ **Frame Accurate Recording** - Byte for Byte, 100% disc verification of audio CD recordings
- ◆ **Audio Track Extraction** - Create an audio compilation disc one track at a time from multiple masters.
- ◆ **Durable**, heavy-duty steel casing and a 24/7 duty cycle means your MF DIGITAL duplicator won't overheat.
- ◆ **Asynchronous Automated Copying** - Just add an autoloader mechanism to convert to automation

Specifications

# of Drives:	6
Drive Type:	Frame Accurate CD / DVD
Standalone:	Yes
Network Client : Command Center:	Yes
Multiple Masters to Hard Drive:	Yes(6)
Auto Loading System:	Yes (optional)
CD-R Business Card Compatible:	Yes
Dimensions: (W x H x D)	7.5" x 12.24" x 18.75"
Weight (lbs/kg):	41 lbs./18.6 kg
Connector:	IDE
Internal, Open Architecture Controller: Win XP Embedded:	Yes
Power Consumption:	150 Watts
Frequency Response:	22Hz-22kHz, -0.4, - 0.4dB
Dynamic Range:	104dB (A-weighted) (D/A) 100.4dB (A-weighted) (A/D)
THD:	< 0.002%

Features

- ◆ 2 x 2 analog I/O
- ◆ 24-bit/96kHz fidelity
- ◆ S/PDIF digital I/O with 2-channel PCM
- ◆ 1 x 1 MIDI I/O
- ◆ Analog I/O with gold-plated RCA jacks
- ◆ On long recordings, the user may choose the span point for the next disc. This allows you to choose a logical break point for multiple disc recording rather than a fixed 74 or 80 minutes.
- ◆ Record to six drives simultaneously.
- ◆ Only MF Digital offers true audio audio disc verification (not just TOC) ISRC, UPC, and sub-index editing.
- ◆ Can be automated later using MF Digital's ScribeEC autoloader upgrade.
