

FlashMAX

Portable USB Duplicator

The fastest, most reliable way to make multiple copies of your USB drives

FlashMAX USB duplicators easily and reliably create multiple copies of your USB drives without a computer or cumbersome software. Each USB channel has dedicated copy throughput of 33MB per second. Asynchronous copy mode* allows each channel to function independently and copies directly from 256MB of built-in memory so there is no need to interrupt a copy cycle. Source Analysis feature identifies the content on the master and intelligently copies only the data to speed up the copy cycle. Fast, reliable, convenient and cost-effective to operate, FlashMAX USB duplicators help you to get more done in less time!

Features:

- Standalone solution; no PC or software is needed
- Supports Asynchronous copy mode*
- Unique Source Analysis feature
- Up to 2GB per min copy speed per port**
- Easy to use, cost-effective to operate
- Real-time display of detailed information
- No warm-up or cool-down required
- Heavy-duty construction, built for daily operation
- Portable, compact design features a built-in handle
- USB Drive check function

Also Available in 15 & 31 Targets

ASYNC Copy

33 MBps

Specifications

Operating Type	Stand-alone (No PC Required)	Copy Mode	Synchronous or Asynchronous*
Targets	15, 31 and 39	LCD Display	2 x 20 characters (Backlit)
Supported Media	USB Storage	Power Requirements	115V or 230V
Transfer Speed	Up to 2GB per minute	Operating Temperature	41°F ~ 122°F
Buffer Memory	256MB	Operating Humidity	15% ~ 90%
		Regulations	FCC, CE, UL

*Master data can not be larger than 256MB.

**Actual write speed may vary depending on USB drive write speed.
